PRODUKCJA WYROBÓW Z DREWNA MYJAK

We are a family company and a direct manufacturer with many years of experience and a modern view on production. Since 1993, we have built a strong position thanks to steady quality, reliability, and lasting cooperation with our partners.

We use only local raw materials from Polish forests, certified by FSC®, which gives full control over the process and ensures stable, responsible production.

Our products are made from selected birch, beech, and alder wood, valued for strength and durability. We focus on precision, flexibility, and customer-oriented production, adjusting to individual needs while keeping high efficiency. All products hold quality certificates and meet top hygiene and safety standards.

WHAT SETS US APART?

OVER 30 YEARS OF EXPERIENCE

Since 1993, we have been operating as a family-owned manufacturer. Our long-standing experience guarantees stability, proven processes, and reliable cooperation.

MODERN MACHINE PARK

Our production is supported by a modern and continuously developed machine park. Advanced technology ensures precision, repeatability, and efficiency at every stage.

PRODUCTION FLEXIBILITY

We adapt to individual customer requirements and changing market needs. Flexible production allows us to deliver both standard and customized solutions.

CERTIFIED WOOD FROM POLISH FORESTS

We use only FSC®-certified wood sourced exclusively from Polish forests. Birch, beech, and alder are carefully selected for quality, durability, and sustainability.
